**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

**Katalin Tarnay** is professor emeritus at the University of Pannonia (Hungary). She received her M.Sc. degree at the Technical University of Budapest in 1956, Ph.D. degree at the Hungarian Academy of Sciences in 1974. She developed software tools and methods for protocol engineering first in the Central Research Institute for Physics, and later in Nokia Hungary. At the same time, she was appointed full professor at the University of Pannonia and honorary professor at the Budapest University of Technology. She was author of the book *Protocol Specification and Testing* (Plenum Press, New York, 1991.) and editor of the book *Advanced Communication Protocol Technologies: Solutions, Methods and Applications* (IGI Global, Hershey, 2011).
