Description:

In open education, equality, accessibility, inclusiveness, and lifelong learning are key concerns. To meet, adapt to, and anticipate global goals and needs, as well as address open education concerns, educational programs require systemic changes and innovative leadership for advanced learning environments.

Ubiquitous Inclusive Learning in a Digital Era provides innovative insights into the issues and current trends on open, online, flexible education and technology-enabled learning. The content within this publication represents the work of open online learning, hybrid learning, and inclusiveness. It is designed for educational administrators, teachers, librarians, government officials, and graduate-level students seeking covering on topics centered on educational technologies and equal access education.
