

International Journal of Mobile Devices, Wearable Technology, and Flexible Electronics (IJMDWTFE)

ISSN: 2640-4249; EISSN: 2640-4257

Established 2018; Published Semi-Annually

Editor(s)-in-Chief: Fan Wu (Tuskegee University, USA)

The International Journal of Mobile Devices, Wearable Technology, and Flexible Electronics (IJMDWTFE) combines research from academicians and industrialists across the globe on advanced tools and technologies that perform wireless operations. Useful to scholars, researchers, and practitioners involved in related fields, this journal provides the latest developments in the theory, design, implementation, analysis, application, and standards of handheld devices, including smart phones, activity trackers, smart watches, and tablets, as well as emerging developments in flexible electronics. It provides a comprehensive study on computing and programming, as well as applications using these devices.

Individual Price:

Print: US \$320

E-Journal: US \$320

Print + E-Journal: US \$385

Institution Price:

Print: US \$915

Online Access: US \$915

Print + Online Access: US \$1,110

Prices are subject to change without notification.

Indexed in:

Topics Covered:

- Android systems, computing, applications, and programming
- Browsing the mobile web
- Client-side mobile-commerce computing, applications, and programming
- Context/location-based services, computing, and applications
- Electronic circuits
- Embedded systems, computing, and applications
- Energy saving
- Flex circuits
- Handheld components such as microbrowsers, cameras, scanners, data synchronization like infrared and Bluetooth wireless communication, and batteries
- Handheld devices, architecture, and systems
- Handheld hardware and software integration
- Handheld input and output methods and components and peripherals
- Handheld specifications, standards, guidelines, software, and tools
- iOS systems, computing, applications, and programming
- Mobile advertising and sales
- Mobile and wireless networks
- Mobile Cloud Computing
- Mobile commerce applications and systems
- Mobile commerce, business, and banking
- Mobile instructions and classrooms
- Mobile inventory management and resource planning
- Mobile messaging, emailing, broadcasting, and blogging
- Mobile offices, management, and services
- Mobile semantic and intelligent web
- Mobile social networks and virtual communities
- Mobile traffic, travel, and weather reports
- Mobile Web 2.0 and plus
- Mobile web and data mining
- Mobile web and internet
- Mobile/handheld/tablet algorithms and methodologies
- Mobile/handheld/tablet computing for big data
- Mobile/handheld/tablet data management
- Mobile/handheld/tablet entertainment and gaming
- Mobile/handheld/tablet human computer interface and user interface design and implementation
- Mobile/handheld/tablet operating systems and platforms
- Mobile/handheld/tablet programming languages and environments
- Mobile/handheld/tablet security and payment methods
- Mobile/handheld/tablet/embedded database systems
- Remote intranet access
- Server-side mobile-commerce computing, applications, and programming
- Wearable devices, architecture, and systems
- Wearable hardware and software integration

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Fan Wu, IJMDWTFE@igi-global.com
