

Multidisciplinary Perspectives on Human Capital and Information Technology Professionals

Part of the Advances in Information Security, Privacy, and Ethics Book Series

Vandana Ahuja (Jaypee Institute of Information Technology, India) and Shubhangini Rathore (IBS Gurgaon, India)

Description:

In this technological age, the information technology (IT) industry is an important facet of society and business. The IT industry is able to become more efficient and successful through the examination of its structure and a larger understanding of the individuals that work in the field.

Multidisciplinary Perspectives on Human Capital and Information Technology Professionals

is a critical scholarly resource that focuses on IT as an industry and examines it from an array of academic viewpoints. Featuring coverage on a wide range of topics, such as employee online communities, role stress, and competence frameworks, this book is targeted toward academicians, students, and researchers seeking relevant research on IT as an industry.
