

# Educational Innovation to Address Complex Societal Challenges

Part of the Advances in Educational Technologies and Instructional Design Book Series

Antonio Cortijo Ocaña (University of California, Santa Barbara, USA), Santiago Mengual-Andres (University of Valencia, Spain) and Jacobo Roda Segarra (University of Valencia, Spain)

## Description:

In modern education, students and teaching methodologies face many challenges that hinder smooth development. The digital age presents students with information overload, impeding the cultivation of their critical thinking skills. Traditional language teaching methods must be revised to prepare students for the intricacies of a globalized, multilingual world. The rise in academic demands contributes to heightened stress levels among students. Despite the urgency of environmental challenges, educational systems need a cohesive focus on eco-conscious practices. The abrupt transition to virtual learning during crises has exposed challenges in adapting to and fully realizing the potential of virtual environments. These interrelated issues underscore the imperative for a comprehensive solution that aligns pedagogical practices with the demands of contemporary society.

**Educational Innovation to Address Complex Societal Challenges** begins by dissecting pedagogical renewal and educational innovation, illustrating their expansive reach and adaptability in addressing the diverse educational challenges of our time. It emphasizes that these innovative elements extend beyond mere educational enhancements, presenting many opportunities to catalyze substantial societal change. A crucial aspect highlighted is the reciprocal relationship between educational practices and social reality, creating a symbiotic circle that adds meaning to the educational process.

The chapters present diverse perspectives and innovative proposals that underscore the flexibility of educational practices. They illuminate the connections between pedagogical renewal, educational innovation, and societal changes by weaving together initiatives and research conducted within classrooms. This synthesis serves as a foundation for profound reflection, providing readers with insights into new opportunities for societal transformation.

Designed for professionals and researchers in the field of education, the book caters to educators across various stages, from primary to adult education. It also extends its reach to professionals in adjacent domains such as computer science, sociology, environment, and languages. School management teams seeking methodological changes will find this work invaluable, offering a roadmap for integrating pedagogical renewal and educational innovation into their institutions.

**ISBN:** 9798369330739

**Pages:** 320

**Copyright:** 2024

**Release Date:** June, 2024

**Hardcover:** \$235.00

**E-Book:** \$280.00

**Hardcover +  
E-Book:** \$280.00

## Topics Covered:

- Digital Literacy
- Educational Innovation
- Empathy Development
- Foreign Language Teaching
- Fostering Creativity
- Global Personality Development
- Information and Communication Technology (ICT)
- Mental Well-being
- Multilingual Contexts
- Pedagogical Renewal
- Smartphones in the Classroom
- Soft Skills Cultivation
- Sustainability
- Virtual Environments

**Subject:** Education

**Classification:** Edited Reference

**Readership Level:** Advanced-Academic Level  
(Research Recommended)

**Research Suitable for:** Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
