Psychological, Social, and Cultural Aspects of Internet Addiction

Part of the Advances in Human and Social Aspects of Technology Book Series
Bahadir Bozoglan (IF Weinheim Institute, Germany)

Description:

Addiction is a powerful and destructive condition impacting large portions of the population around the world. While typically associated with substances, such as drugs and alcohol, technology and internet addiction have become a concern in recent years as technology use has become ubiquitous.

Psychological, Social, and Cultural Aspects of Internet Addiction is a critical scholarly resource that sheds light on the relationship between psycho-social variables and internet addiction. Featuring coverage on a broad range of topics such as human-computer interaction, academic performance, and online behavior, this book is geared towards psychologists, counselors, graduate-level students, and researchers studying psychology and technology use.
