

# Evaluation and Management of High-Risk Pregnancies: Emerging Research and Opportunities

Part of the Advances in Medical Diagnosis, Treatment, and Care Book Series

Sapna Nanda (Panjab University, India)

## Description:

Complications during and after pregnancy and birth result in hundreds of thousands of deaths each year and can lead to lifelong health problems. Even with these complications, however, early detection and prenatal care can further reduce risk to the mother and baby. However, inadequate medical services, shortage of medical resources, and lack of or misinformation can hinder a woman's ability to successfully manage her pregnancy. This not only affects the health of the people immediately concerned and their families, but also has implications for global stability and the balance between population and resources.

**Evaluation and Management of High-Risk Pregnancies: Emerging Research and Opportunities** is a pivotal reference source that provides vital research on safeguarding mothers and babies through the availability of medical knowledge, cost-effective interventions, and the availability of widespread obstetric services. While highlighting topics such as labor complications, maternal mortality, and reproductive health, this publication explores exposure to sexually transmitted diseases as well as the methods of physical and mental healthcare. This book is ideally designed for obstetricians, gynecologists, world health organizations, policymakers, hospitals, health professionals, reproduction researchers, and physicians.

**ISBN:** 9781799843573

**Pages:** 150

**Copyright:** 2021

**Release Date:** July, 2020

**Hardcover:** \$195.00

**E-Book:** \$195.00

**Hardcover + E-Book:** \$235.00

## Topics Covered:

Adolescent Health  
Developing Countries  
Global Health  
Health Policy  
Labor Complications

Maternal Mortality  
Reproductive Health  
Reproductive Technology  
Sexual Health  
Women's Health

**Subject:** Medical, Healthcare, and Life Sciences

**Classification:** Research Insights

**Readership Level:** Advanced-Academic Level  
(Research Recommended)

**Research Suitable for:** Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
