

Climate Change Education for Sustainable Development

Part of the Advances in Educational Marketing, Administration, and Leadership Book Series

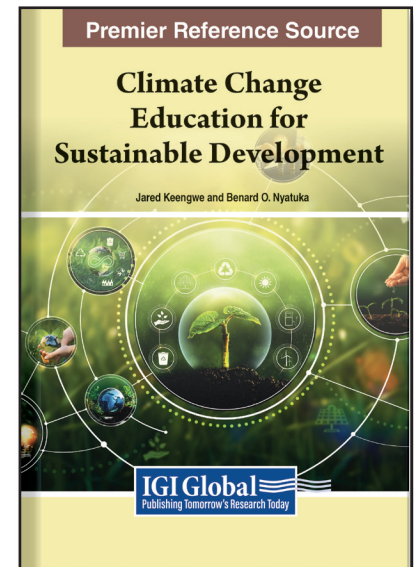

Jared Keengwe (University of North Dakota, USA), Benard O. Nyatuka, Kisii University, Kenya

Description:

In today's world, climate change education has emerged as one of the most vital aspects of sustainable development. **Climate Change Education for Sustainable Development**, edited by Jared Keengwe, is a must-read for all academic scholars who are concerned about the impact of climate change and want to foster sustainable development.

The book highlights the importance of climate change education and its role in equipping individuals with the knowledge, skills, values, and attitudes needed to confront the impact of climate change. It also identifies the existing challenges in realizing the anticipated objectives, including limited understanding of the weather change phenomenon, less effective pedagogical approaches, and weak partnerships among the critical stakeholders.

The book covers various topics such as the principles of teaching sustainable and climate change education, pedagogical perspectives, theoretical foundations and alignment of teaching and learning, educators' professional orientation, pedagogical strategies, customized learner support, contextual issues, and action research and reflective practice considerations, making it ideal for a wide variety of individuals. These include climate change analysts, policy makers, curriculum and instructional designers, faculty, administrators, teacher educators, and other stakeholders who are interested in averting the impact of climate change and fostering sustainable development. With its comprehensive coverage of the subject and the expertise of the editor, **Climate Change Education for Sustainable Development** is the perfect resource for anyone seeking to deepen their understanding of climate change education and its role in sustainable development.
