

# Analyzing Human Behavior in Cyberspace

Part of the Advances in Human and Social Aspects of Technology Book Series

Zheng Yan (University at Albany (SUNY), USA)

## Description:

The rapid evolution of technology continuously changes the way people interact, work, and learn. By examining these advances from a sociological perspective, researchers can further understand the impact of cyberspace on human behavior, interaction, and cognition.

**Analyzing Human Behavior in Cyberspace** provides emerging research exploring the four types of cyber behavior, expanding the scientific knowledge about the subject matter and revealing its extreme complexity. Featuring coverage on a broad range of topics such as cyber effects, emotion recognition, and cyber victimization, this book is ideally designed for sociologists, psychologists, academicians, researchers, and graduate-level students seeking current research on how people behave online.
