

# Distribution and Treatment of Infectious Diseases: Challenges for Developed and Developing Nations

Hiba Hamdar (Medical Learning Skills Academy, Lebanon)

## Description:

In our interconnected world, infectious diseases pose an ever-increasing threat, transforming boundaries and affecting both developed and developing nations. While developed countries benefit from advanced healthcare systems, the rise of antibiotic-resistant infections, an aging population, and global travel challenges persist. Simultaneously, developing nations face a more significant burden due to limited healthcare infrastructure, poverty, and the prevalence of tropical diseases. The lack of access to clean water, sanitation, and vaccines further compounds the challenges, creating a complex tapestry of infectious disease dynamics.

**Distribution and Treatment of Infectious Diseases: Challenges for Developed and Developing Nations** is a comprehensive book, a beacon of knowledge, and a catalyst for change; it brings together esteemed scholars to form a collective of effort and knowledge sharing to unravel the intricacies of infectious diseases. By addressing topics ranging from the basics of infection to the specific challenges faced by developed and developing nations, the book offers a comprehensive understanding of the global situation. Beyond a mere analysis, this book presents actionable strategies and fosters international cooperation to combat the socio-economic factors, misinformation, and barriers to effective treatment.

This book is designed for medical students, researchers, physicians, infectious disease specialists, and universities, providing a comprehensive overview of the field. The highly credited contributors bring diverse voices and perspectives, ensuring a rich and multi-dimensional exploration. With thematic guidance provided in the form of an overview of infections, challenges, and management, the book gives a path to navigate this complex landscape.

**ISBN:** 9798369319901 **Pages:** 410 **Copyright:** 2026 **Release Date:** 4/26/2024

**Hardcover:** \$220 **Softcover:** \$180 **E-Book:** \$220 **Hardcover + E-Book:** \$210

## Topics Covered:

Antibacterial Therapy in Infectious Diseases  
Challenges in Infectious Disease Management  
Clinical Features of Infectious Diseases  
COVID-19  
Epidemiology  
Immunotherapy  
Microorganisms, Macroorganisms, and Environments

Pathogenetic Therapy  
Phases of Infectious Diseases  
Socioeconomic Factors  
Typhoid Fever and Paratyphus  
Viral Hemorrhagic Fever  
War-Related Challenges in Infectious Disease Control  
Yellow Fever and Other Tropical Diseases

**Subject:** Medicine and Healthcare

**Readership Level:** Advanced-Academic Level (Research Recommended)

**Classification:** Edited Reference

**Research Suitable For:** Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
