

# Handbook of Research on Smart Technology Models for Business and Industry

Part of the Advances in Computational Intelligence and Robotics Book Series

J. Joshua Thomas (KDU Penang University College, Malaysia), Ugo Fiore (University of Naples Parthenope, Italy), Gilberto Perez Lechuga (AUTONOMOUS UNIVERSITY OF THE HIDALGO STATE, Mexico), Valeriy Kharchenko (Azov-Black Sea Engineering Institute of Federal State Budgetary Establishment of Higher Education, Russia), and Pandian Vasant (Universiti Teknologi PETRONAS, Malaysia)

## Description:

Advances in machine learning techniques and ever-increasing computing power has helped create a new generation of hardware and software technologies with practical applications for nearly every industry. As the progress has, in turn, excited the interest of venture investors, technology firms, and a growing number of clients, implementing intelligent automation in both physical and information systems has become a must in business.

The **Handbook of Research on Smart Technology Models for Business and Industry** is an essential reference source that discusses relevant abstract frameworks and the latest experimental research findings in theory, mathematical models, software applications, and prototypes in the area of smart technologies. Featuring research on topics such as digital security, renewable energy, and intelligence management, this book is ideally designed for machine learning specialists, industrial experts, data scientists, researchers, academicians, students, and business professionals seeking coverage on current smart technology models.

**ISBN:** 9781799836452

**Pages:** 400

**Copyright:** 2020

**Release Date:** June, 2020

**Hardcover:** \$295.00

**Softcover:** \$225.00

**E-Book:** \$295.00

**Hardcover + E-Book:** \$355.00

## Topics Covered:

5G Telecommunication Network Theory  
Artificial Neural Networks  
Augmented and Virtual Reality  
Automation and Robotics  
Cyber-Physical Systems  
Cybersecurity

Data Analytics  
Industry 4.0  
Intelligence Management  
Renewable Energy  
Sensor Networks  
Smart Cities

**Subject:** Computer Science and Information Technology

**Classification:** Handbook of Research

**Readership Level:** Advanced-Academic Level (Research Recommended)

**Research Suitable for:** Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners

### Order Information

Phone: 717-533-8845 x100

Toll Free: 1-866-342-6657

Fax: 717-533-8661 or 717-533-7115
