

Promoting Social Change and Democracy through Information Technology

Part of the Advances in Electronic Government, Digital Divide, and Regional Development (AEGDDRD) Book Series

Vikas Kumar (Asia-Pacific Institute of Management, India) and Jakob Svensson (Uppsala University, Sweden)

Description:

Life in the digital era offers an array of new and invigorating opportunities, as well as a new set of challenges when facing the dissemination of fresh innovations. While once reserved for personal use, online platforms are now being utilized for more critical purposes, such as social revolution, political influence, and governance at both the local and national levels.

Promoting Social Changes and Democracy through Information Technology is a definitive reference source for the latest scholarly research on the use of the internet, mobile phones, and other digital platforms for political discourse between citizens and governments.

Readers:

This comprehensive book is an essential reference source for advanced-level students, researchers, practitioners, and academicians interested in the changing landscape of democratic development and social welfare.
