Description:

The study of ideology and narratology in film reveals intricate layers of meaning and cultural significance embedded within cinematic narratives. This exploration delves into how ideologies are conveyed, reinforced, or challenged across multiple installments of a film franchise. By analyzing the narrative structures, character developments, and thematic continuities, scholars can uncover the underlying messages and societal implications that shape audience perceptions.

Analyzing Ideology and Narratology in Film Series, Sequels, and Trilogies explores the complex narrative and ideological dimensions within multi-installment cinematic works. It investigates how sequential storytelling in film not only entertains but also reflects and shapes cultural, social, and political ideologies. By examining narrative structures in film series and franchises, this book reveals the subtle ways in which ideologies are constructed, perpetuated, or subverted. Covering topics such as narrative complexity, psychoanalytical analysis, and ideology, this book is a valuable resource for academicians, researchers, post-graduate students, educators, sociologists, and more.
