Emerging Trends, Techniques, and Applications in Geospatial Data Science
Part of the Advances in Geospatial Technologies Book Series

Loveleen Gaur (Amity University, India) and
PK Garg (IIT Roorkee, India)

Description:

The COVID-19 pandemic had a tremendous effect on the mental health of people globally. It is critical to examine how people adapted to this new normal to understand the effects on society and its citizens.

Emerging Trends, Techniques, and Applications in Geospatial Data Science discusses the mental health concerns of individuals during the pandemic, the new normal, and the transition stage. The book also examines the coping mechanisms utilized to overcome mental health concerns during turbulent times. Covering key topics such as social distancing, student mental health, and pandemics, this premier reference source is ideal for medical professionals, nurses, sociologists, psychiatrists, psychologists, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.
