Multisector Insights in Healthcare, Social Sciences, Society, and Technology

Part of the Advances in Medical Technologies and Clinical Practice Book Series

Darrell Norman Burrell (Marymount University, USA)

Description:

Due to a variety of global challenges in recent times, the dissolution of traditional boundaries between academic disciplines has given rise to a pressing need for innovative problem-solving. Complex issues affect our societies, spanning healthcare, social sciences, organizational behavior, and technology. This shifting landscape necessitates a comprehensive exploration into the interconnections between these diverse fields. The book, **Multisector Insights in Healthcare, Social Sciences, Society, and Technology**, is an innovative guide that seeks to examine the relationships between various fields of knowledge. It celebrates the transformative impact of applied research and interdisciplinary collaboration as the driving force behind overcoming the most significant challenges of our time.

As the boundaries between disciplines blur, the book takes readers on a journey through multifaceted issues at the intersection of healthcare, social sciences, organizational behavior, and technology. Chapters within this book unravel the complexities of healthcare ethics, global health initiatives, organizational dynamics, and technological advancements. Through literature reviews, qualitative and quantitative studies, and real-world case analyses, the compendium not only identifies the problems but also offers concrete, evidence-backed solutions. This interdisciplinary approach underscores the need to address the pressing challenges of our time, emphasizing the need for collaborative strategies to drive positive change.

Multisector Insights in Healthcare, Social Sciences, Society, and Technology is a rallying call for professors, researchers, executives, doctoral students, graduate students, policy makers, and community change agents. By accepting diverse papers that range from literature reviews to action research studies, it aims to build a robust foundation for applied solutions. This book stands as a testament to the power of interdisciplinary collaboration and applied research. It offers inspiration and guidance to those determined to explore the possibilities of interconnected knowledge, affirming its potential to transform our world.

ISBN: 9798369332269	Pages: 370	Copyright: 2024	Release Date: January, 2024
Hardcover: \$505.00	E-Book: <mark>\$610.00</mark>	Hardcover + E-Book: \$610.00	

Topics Covered:

- Artificial Intelligence
- Digital Inclusion Policies
- Food Safety and Security
- Global Health Equity
- Health Information Technology
- Healthcare Access and Equity
- Healthcare Ethics
- Healthcare Policy and Reform

- Human-Al Interaction
 - Inclusive Technology
 - Invisible Disabilities Awareness
- IoT Vulnerabilities
- Maternal and Child Health
- Mental Health and Well-being
- Occupational Health and Safety Hazards

Subject: Medical, Healthcare, and Life Sciences

Readership Level: Advanced-Academic Level (Research Recommended)

Classification: Edited Reference

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
