

Effective Practices in Online Teacher Preparation for Literacy Educators

Part of the Advances in Higher Education and Professional Development Book Series

Rachel Karchmer-Klein (University of Delaware, USA) and Kristine E. Pytash (Kent State University, USA)

Description:

Online education has become a prevalent means of program and course delivery, especially within teacher education programs. However, the lack of preparation in online design is concerning, especially in the field of teacher education where the focus is preparing preservice and practicing teachers to implement effective, evidence-based instructional strategies.

Effective Practices in Online Teacher Preparation for Literacy Educators is an essential scholarly resource that shares innovative ideas for translating face-to-face reading/literacy specialist preparation into effective online instruction for courses in literacy education. Highlighting various topics such as instructional design, teacher education, and literacy assessment, this book is ideal for instructors, curriculum developers, instructional designers, IT specialists, education professionals, instructors, administrators, academicians, and researchers.
