## Protocols and Applications for the Industrial Internet of Things

Part of the Advances in Business Information Systems and Analytics Book Series

Cristian González García (University of Oviedo, Spain), Vicente García-Díaz (University of Oviedo, Spain), B. Cristina Pelayo García-Bustelo (University of Oviedo, Spain) and Juan Manuel Cueva Lovelle (University of Oviedo, Spain)

## **Description:**

The Internet of Things (IoT) has become a major influence on the development of new technologies and innovations. When utilized properly, these applications can enhance business functions and make them easier to perform.

**Protocols and Applications for the Industrial Internet of Things** discusses and addresses the difficulties, challenges, and applications of IoT in industrial processes and production and work life. Featuring coverage on a broad range of topics such as industrial process control, machine learning, and data mining, this book is geared toward academicians, computer engineers, students, researchers, and professionals seeking current and relevant research on applications of the IoT.

ISBN: 9781522538059 Release Date: April, 2018 Copyright: 2018 Pages: 300

## **Topics Covered:**

- Communication Protocols
- Cyber-Physical Systems
- Data Mining
- Industrial Process Control

- Industrial Robotics
- Machine Learning
- Manufacturing Systems
- Semantic Interoperability
