Released: June 2013

Advanced Instrument Engineering: Measurement, Calibration, and Design

Aimé Lay-Ekuakille
(University of Salento, Italy)

Measurement technologies and instrumentation have a multidisciplinary impact in the field of applied sciences. These engineering technologies are necessary in processing information required for renewable energy, biotechnology, power quality, and nanotechnology.

Advanced Instrument Engineering: Measurement, Calibration, and Design presents theoretical and practical aspects on the activities concerning measurement technologies and instrumentation. This wide range of new ideas in the field of measurements and instrumentation is useful to researchers, scientists, practitioners, and technicians for their area of expertise.

Topics Covered:

- Analog and Digital Systems
- Bioelectrics
- Instrumentation
- Measurement Technologies
- Nanocomposite Materials
- Standardization
- Wireless Sensor Networks

ISBN: 9781466641655; © 2013; 349 pp.

Print: US \$195.00 | Perpetual: US \$295.00 | Print + Perpetual: US \$390.00

Pre-pub Discount:*

Print: US \$185.00 | Perpetual: US \$280.00

* Pre-pub price is good through one month after publication date.

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Aimé Lay-Ekuakille is a professor at the University of Salento (Italy). He got a MD in Electronic Engineering from the University of Bari (Italy) and a PhD in Electronic Engineering from the Polytechnic of Bari. He has been director and technical manager of different private companies in the field of: industrial plants, environment measurements, nuclear and biomedical measurements; he was Director of Health & Environment in a public department. His main research involves environmental, biomedical and industrial instrumentation and measurements. He has authored and co-authored more than 100 papers on international conferences and journals.
