

Healthcare Delivery Reform Initiatives (IJHDRI)

ISSN: 1938-0216; EISSN: 1938-0224

Established 2009; Published Quarterly

Editor(s)-in-Chief: Matthew W. Guah (Claflin University, USA)

IJHDRI publishes original papers in all areas of healthcare management reform and information systems initiatives aimed at healthcare delivery improvement. It emphasizes empirical research but may include specialized theoretical, methodological, and review papers from both practitioners and academics working in the healthcare industry. It particularly looks at the analysis of ongoing and future initiatives to promote efficiency and reduce error, continuous increase in cost of healthcare delivery, wider divide in the quality of health service available to different segments of our communities, and the influence of increase use of IT in various healthcare delivery processes.

Topics Covered:

- Analysis of fundamental concepts for healthcare reform
- Best practice for healthcare management strategies in Internet age
- Best practices for integration of business and healthcare delivery processes
- Best practices for managing reform processes in healthcare
- Best practices for managing the demand for healthcare delivery systems
- Best practices models for healthcare capacity and demand management
- Communication, coordination, and cooperation of actors in healthcare reform
