

E-Democracy and E-Participation

A Collection of 19 Scholarly Titles

The move towards e-governance not only affects the efficiency and effectiveness of public service, but also has the potential to transform the nature of government interactions with citizens.

The **E-Democracy and E-Participation** collection is an authoritative reference compilation that facilitates online citizen participation in decision-making and sparks debate on how governments can best transition from a physical to a digital entity. This comprehensive set of titles includes 19 scholarly texts exploring the global digital divide, public sector reform, civic engagement, and online activism. These titles represent IGI Global's unique coverage of the impact and effective use of technology within the fields of electronic government and public and sector management.

Stakeholder Adoption of E-Government Services: Driving and Resisting Factors

Mahmud Akhter Shareef (McMaster University, Canada), et al.
ISBN: 978-1-60960-601-5; © 2011; 348 pp.

Sheds light on the paradigms and fundamental discourses of the e-government adoption process.

Handbook of Research on Strategies for Local E-Government Adoption and Implementation: Comparative Studies

Christopher G. Reddick (University of Texas at San Antonio, USA)
ISBN: 978-1-60566-282-4; © 2009; 1140 pp.

Provides examinations of the adoption and impact of e-government in countries throughout the world at the local level by leading scholars and practitioners in the field.

Citizens and E-Government: Evaluating Policy and Management

Christopher G. Reddick (The University of Texas at San Antonio, USA)
ISBN: 978-1-61520-931-6; © 2010; 426 pp.

Examines the role that citizens play in the development of electronic government or e-government, specifically focusing on the impact of e-government and citizens while exploring issues of policy and management.

Modern Public Information Technology Systems: Issues and Challenges

G. David Garson (North Carolina State University, USA)
ISBN: 978-1-59904-051-6; © 2007; 300 pp.

Explores the impact of information technology on governmental accountability and distribution of power.

Systems Thinking and E-Participation: ICT in the Governance of Society

Jose Rodrigo Cordoba-Pachon (University of London, UK), et al.
ISBN: 978-1-60566-860-4; © 2010; 394 pp.

Provides a systemic-based inquiry platform to explore boundaries, limits, and advantages of information and communication technology use in public decision-making processes.

Electronic Government Strategies and Implementation

Wayne Huang (Ohio University, USA), et al.
ISBN: 978-1-59140-348-7; © 2005; 464 pp.

Addresses the issues involved in strategically implementing digital government. It is a collection of high-quality papers that cover the various aspects of digital government strategic issues and implementations from the perspectives of both developed and developing countries.

Electronic Constitution: Social, Cultural, and Political Implications

Francesco Amoretti (University of Salerno, Italy)
ISBN: 978-1-60566-254-1; © 2009; 310 pp.

Provides analysis of the relationship between digital information technologies and politics.

E-Government Website Development: Future Trends and Strategic Models

Ed Downey (SUNY College at Brockport, USA), et al.
ISBN: 978-1-61692-018-0; © 2011; 404 pp.

Incorporates a combination of basic concepts that will guide future development of governmental Web sites.

Patriotic Information Systems

Todd Loendorf (North Carolina State University, USA), et al.
ISBN: 978-1-59904-594-8; © 2008; 270 pp.

Discusses how, with its non-participatory enforcement ethos, its inherent bias against freedom of information, and its massive claims on IT budget resources, the information technology security system of the future may be even less hospitable to the democratic visions.

Social and Organizational Developments through Emerging E-Government Applications: New Principles and Concepts

Vishanth Weerakkody (Brunel University, UK)
ISBN: 978-1-60566-918-2; © 2010; 404 pp.

Discusses the evolution of e-government, focusing on the exploration of technical complexities and current studies of transformation government.

Practicing E-Government: A Global Perspective

Information Resources Management Association, USA
ISBN: 978-1-59140-637-2; © 2005; 457 pp.

Presents a variety of chapters covering many of the important topics in e-government, and is intended to elicit comments, raise concerns, and open dialogue as e-government programs for mainstream society are continually implemented.

Handbook of Research on ICT-Enabled Transformational Government: A Global Perspective

Vishanth Weerakkody (Brunel University, UK), et al.
ISBN: 978-1-60566-390-6; © 2009; 582 pp.

Defines the most important issues, concepts, trends, and technologies within transformation stage e-government (t-government) implementation.

Handbook of Research on Public Information Technology

G. David Garson (North Carolina State University, USA), et al.
ISBN: 978-1-59904-857-4; © 2008; 1066 pp.

This handbook compiles estimable research on the global trend toward the rapidly increasing use of information technology in the public sector.

E-Government Diffusion, Policy, and Impact: Advanced Issues and Practices

Information Resources Management Association, USA
ISBN: 978-1-60566-130-8; © 2009; 394 pp.

This comprehensive collection sheds light on how e-government technologies are shaping today's knowledge.

Information Communication Technologies and the Virtual Public Sphere: Impacts of Network Structures on Civil Society

Robert Cropf (St. Louis University, USA), et al.
ISBN: 978-1-60960-159-1; © 2011; 356 pp.

Demonstrates how the virtual public sphere uses information communications technology to empower citizens to engage in public discourse.

Public Management Information Systems

Bruce Rocheleau (Northern Illinois University, USA)
ISBN: 978-1-59140-807-9; © 2006; 382 pp.

Provides public administrators with a map of the key actors and processes they need to be aware of if they are to be successful in making IT decisions in the public sector.

Politics, Democracy and E-Government: Participation and Service Delivery

Christopher G. Reddick (The University of Texas at San Antonio, USA)
ISBN: 978-1-61520-933-0; © 2010; 437 pp.

Examines how e-government impacts politics and democracy in both developed and developing countries.

eTransformation in Governance: New Directions in Government and Politics

Matti Mäikiä (The Police College, Finland), et al.
ISBN: 978-1-59140-130-8; © 2004; 336 pp.

This book is about transformation in government and governance due to the information society development. It provides conceptual clarification of the e-transformation in governance, and presents empirical findings on the recent developments in Western countries.

Handbook of Research on E-Government Readiness for Information and Service Exchange: Utilizing Progressive Information Communication Technologies

Hakikur Rahman (University of Minho, Portugal)
ISBN: 978-1-60566-671-6; © 2010; 588 pp.

This collection formulates leading ICT strategies for the development of efficient and effective e-government systems.
