Information Technology for Intellectual Property Protection: Interdisciplinary Advancements

Hideyasu Sasaki (Ritsumeikan University, Japan)
ISBN: 978-1-61350-135-1; © 2012; 412 pp.

Contains multidisciplinary knowledge and analysis by leading researchers and practitioners with technical backgrounds in information engineering and institutional experience in intellectual property practice.

Information Communication Technology Law, Protection and Access Rights: Global Approaches and Issues

Irene Maria Portela (Polytechnic Institute of Cávado and Ave, Portugal), et al.
ISBN: 978-1-61520-975-0; © 2010; 388 pp.

Addresses issues from the practical, legal, ethical, political, and social policy perspectives, drawing attention to diverse global approaches to the challenges posed by ICT to access rights.

Privacy, Intrusion Detection and Response: Technologies for Protecting Networks

Peyman Kabiri (Iran University of Science and Technology, Iran)
ISBN: 978-1-60960-836-1; © 2012; 468 pp.

Explores the latest practices and research works in the area of privacy, intrusion detection, and response.

Technoethics and the Evolving Knowledge Society: Ethical Issues in Technological Design, Research, Development, and Innovation

Rocci Luppicini (University of Ottawa, Canada)
ISBN: 978-1-60566-952-6; © 2010; 401 pp.

Examines human processes and practices connected to technology embedded within social, political, and moral spheres of life.

Investigating Cyber Law and Cyber Ethics: Issues, Impacts and Practices

Alfreda Dudley (Towson University, USA), et al.
ISBN: 978-1-61350-132-0; © 2012; 394 pp.

Highlights the ethical and legal practices used in computing technologies, increases the effectiveness of computing students and professionals in applying ethical values and legal statutes.

Standardization and Digital Enclosure: The Privatization of Standards, Knowledge, and Policy in the Age of Global Information Technology

Timothy Schoechle (University of Colorado, USA)
ISBN: 978-1-60566-334-0; © 2009; 384 pp.

Offers interdisciplinary approach to standardization and privatization valuable to researchers, practitioners, and academicians.

ICT Ethics and Security in the 21st Century: New Developments and Applications

Marian Quigley (Monash University, Australia)
ISBN: 978-1-60960-573-5; © 2011; 356 pp.

Highlights ethical dilemmas and security challenges posed by the rise of more recent technologies, along with ongoing challenges such as the digital divide, threats to privacy, and organizational security measures.

Information Ethics: Privacy and Intellectual Property

Lee Freeman (The University of Michigan, USA), et al.
ISBN: 978-1-59140-491-0; © 2005; 276 pp.

Provides an up-to-date discussion of the main ethical issues that face today's information-intensive society, including the areas of intellectual property rights, privacy, accessibility, and censorship.

Security and Privacy Assurance in Advancing Technologies: New Developments

Hamid R. Nemati (The University of North Carolina at Greensboro, USA)
ISBN: 978-1-60960-200-0; © 2011; 352 pp.

Explores the changing roles of information technology and how this change will impact information security and privacy.

Handbook of Research on Technoethics

Rocci Luppicini (University of Ottawa, Canada), et al.
ISBN: 978-1-60566-022-6; © 2009; 1082 pp.

Traces the emergence of the new interdisciplinary field of technoethics by exploring its conceptual development, important issues, and key areas of current research.

Handbook of Research on Information Communication Technology Policy: Trends, Issues and Advancements (2 Vols.)

Esharenana E. Adomi (Delta State University, Nigeria)
ISBN: 978-1-61520-847-0; © 2011; 994 pp.

A guide on ICT policy formulation, implementation, adoption, monitoring, evaluation and application; and background information for scholars and researchers interested in carrying out research on ICT policies.

Computer Security, Privacy, and Politics: Current Issues, Challenges and Solutions

Ramesh Subramanian (Quinnipiac University, USA)
ISBN: 978-1-59904-804-8; © 2008; 356 pp.

Connects privacy and politics, offering a point-in-time review of recent developments of computer security, with a special focus on the relevance and implications of global privacy, law, and politics.

Frameworks for ICT Policy: Government, Social and Legal Issues

Esharenana E. Adomi (Delta State University, Nigeria)
ISBN: 978-1-61692-012-8; © 2011; 348 pp.

A reference on ICT policy framework and a guide to those who are involved in ICT policy formulation, implementation, adoption, monitoring, evaluation, and application.

Techniques and Applications for Advanced Information Privacy and Security: Emerging Organizational, Ethical, and Human Issues

Hamid R. Nemati (The University of North Carolina at Greensboro, USA)
ISBN: 978-1-60566-210-7; © 2009; 414 pp.

Provides a thorough understanding of issues and concerns in information technology security.

Chaos Synchronization and Cryptography for Secure Communications: Applications for Encryption

Santo Banerjee (Politecnico di Torino, Italy)
ISBN: 978-1-61520-737-4; © 2011; 368 pp.

Explores the combination of ordinary and time delayed systems and their applications in cryptographic encoding.

Intellectual Property Rights in a Networked World: Theory and Practice

Richard A. Spinello (Boston College, USA), et al.
ISBN: 978-1-59140-576-4; © 2005; 302 pp.

A collection of recent essays offering some fresh perspectives on the scope and future of intellectual property rights. The tripartite division of the book makes this interdisciplinary topic more accessible and intelligible to readers of diverse backgrounds.

Pervasive Information Security and Privacy Developments: Trends and Advancements

Hamid Nemati (University of North Carolina, Greensboro, USA)
ISBN: 978-1-61692-000-5; © 2011; 372 pp.

Compiles research on topics such as technical, regulatory, organizational, managerial, cultural, ethical, and human aspects of information security and privacy.
