IGI Global is a FULL Member of the International Committee on Publication Ethics

Dear Colleagues,

Headquartered in Hershey, PA, and celebrating over 30 years of publishing excellence, IGI Global continues to publish emerging and innovative content within its expanding portfolio of 6,600+ e-books and 110+ highly indexed e-journals. With a steadfast pledge to put the research community and underrepresented research concepts before profit, IGI Global continues to affirm itself as a trusted and reliable publisher that strives to enhance the current body of scientific knowledge through close collaborations with researchers and scholars worldwide.

As a disseminator of resources that fuel innovations and inspire positive societal change, IGI Global endeavors to ensure that its cutting-edge research is easily accessible to the research community through its award-winning e-Collections, including the IGI Global e-Book Collection and e-Journal Collection. Offering a very simple and transparent pricing structure, institutions of every size have the opportunity to access IGI Global's full collection of books and journals with no additional hidden fees and a guarantee that prices will not increase by more than 5% annually. With institution-wide unlimited simultaneous access, full-text PDF and HTML format, no embargo of content (research available months in advance of print), no DRM, no maintenance fees, as well as the opportunity to take advantage of **IGI Global's Open Access Fee Waiver (Read and Publish) Initiative**, these research databases offer some of the most flexible and customizable database options in the market.

We look forward to collaborating with you to bring IGI Global e-Collections to your institution.

Sincerely,

Nick Newcomer
Senior Director of Marketing and Sales

Supporting Diversity, Equity, and Inclusivity for Over 30+ Years

Since the company's inception in 1988, we have had a collective mission and belief that all research, no matter how unrecognized, contributes significantly to the advancement of knowledge; therefore, it deserves the opportunity to be published. Unlike many other publishers, we continue to believe that it is the research that drives the publishing process, allowing us to ensure that **underrepresented voices are heard**, that **niche content areas are cultivated**, and that **researchers of all levels are afforded the same opportunities as their peers**.

Handbook of Research on Leadership and Advocacy for Children and Families in Rural Poverty

Prof. H. Carol Greene (East Carolina University, USA) et al.

ISBN: 9781799827870 | EISBN: 9781799827894 | © 2020 | 525 pp.

The **Handbook of Research on Leadership and Advocacy for Children and Families in Rural Poverty** is an essential scholarly publication that creates awareness and promotes action for the advocacy of children and families in rural poverty and recommends interdisciplinary approaches to support the cognitive, social, and emotional needs of children and families in poverty.

*This publication was compiled for anyone interested in **the well-being of children and families, especially those families living in rural poverty. Although the needs, concerns, and challenges of children and families living in poverty are well-documented, most of the research focuses overwhelmingly on urban poverty. Considerably less time and attention is given to rural poverty and, in many ways, it is very different from urban poverty. It has its own set of unique challenges and this book helps bring light to some of those issues.***

Metamodernism and Changing Literacy

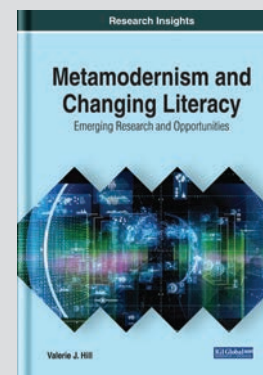

Prof. Valerie J. Hill (Texas Woman's University, USA)

ISBN: 9781799835349 | EISBN: 9781799835363 | © 2020 | 283 pp.

Metamodernism and Changing Literacy is a critical scholarly publication that advocates for new thinking about literacy for all age groups through an exploration of global digital participatory culture and Metamodernism. A thorough examination of both the advantages and disadvantages of new media, new technologies, and virtual environments, with emphasis on metaliteracy, arms educators and learners of all ages with critical skills and keen perspectives. This book valuable for navigating virtual landscapes and identifying best practices for learning and life in a digitally connected world.

*"[This publication] addresses **the need to evaluate the impact of technology on literacy** at a time of **great change in history** through adoption of a common nomenclature and understanding. Educators, researchers, and learners are impacted by changing literacy, and the next generation will face new challenges and opportunities for learning in digital and virtual spaces. The book focuses on **the intersection of our philosophical moment in time**, which I choose to call metamoderism, and literacy as digital media overtakes traditional forms, particularly reading and writing in print, leading to the need for the term metaliteracy."*

– Prof. Valerie J. Hill (Texas Woman's University, USA)

Overcoming Barriers for Women of Color in STEM Fields

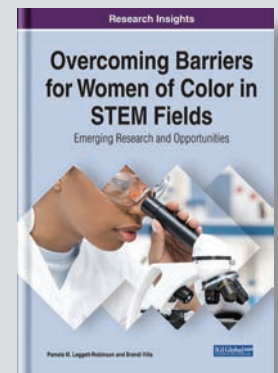

Prof. Pamela M. Leggett-Robinson (PLR Consulting, USA) et al.

ISBN: 9781799848585 | EISBN: 9781799848592 | © 2020 | 199 pp.

Overcoming Barriers for Women of Color in STEM Fields is a collection of innovative research depicting the challenges of women of color professionals in STEM and identifying strategies used to overcome these barriers. The book examines the narrative of these difficulties through a reflective lens that also showcases how both the professional and personal lives of these women were changed in the process. Additionally, the text connects the process to the Butterfly Effect, a metamorphosis that brings about a dramatic change in character and perspective to those who go through it, which in the case of women of color is about rebirth, evolution, and renewal.

*“The book addresses the barriers of bias [intersectionality of race, gender, and STEM] faced while navigating the STEM journey, **provides practical strategies and tools** to mitigate the terrain, **encourages reflection and introspection** of the process, and **helps women to make meaning** from the benefits of the struggle by **celebrating both personal and professional transformations.**”*

- Prof. Pamela M. Leggett-Robinson (PLR Consulting, USA)

Computer Science and IT Knowledge Solutions e-Journal Collection

To assist librarians in the extremely time-consuming task of finding suitable titles to enrich their library collection, IGI Global offers the **Computer Science and IT Knowledge Solutions e-Journal Collection**, which allows institutions to affordably acquire **over 65+ highly cited journals covering the rapidly evolving trends within computer science and IT**. As technology is continually evolving and integrated in every field, this collection is **a holistic resource** covering research areas including, but not limited to artificial intelligence, assistive technologies, big data, cyber security, cyber terrorism, engineering, robotics, virtual reality, and more.

Features of IGI Global's Computer Science and IT Knowledge Solutions e-Journal Collection:

- Includes journals that have been featured in prestigious indices, including Web of Science and Scopus.
- Each publication is produced through a quality-centric, expedite double-blind peer review publishing process (as IGI Global is full member of the Committee on Publication Ethics).
- Contributed by leading, international researchers, academicians, instructors, business analysts, governmental officials, and related experts in the field.
- Contains 65+ peer-reviewed scholarly journals.
- Spans 90+ topics in computer science and IT, science and engineering, and security and forensics.
- Ideal resource for academic computer science, engineering, and security and intelligence programs; research-focused institutions; government agencies/libraries; and corporate libraries that support R&D programs.
- Resources within this collection are geared for upper-level graduate and graduate-level students and researchers.

Computer Science and IT Knowledge Solutions e-Journal Collection Spans Over 220+ Topics, Including:
